

Building Type Basics for Senior Living: A Comprehensive Guide to Design and Construction

As the population of older adults continues to grow, the demand for senior living facilities is on the rise. Architects, engineers, and other professionals are increasingly being called upon to design and construct these facilities. Building Type Basics for Senior Living is a comprehensive guide to the design and construction of senior living facilities. This book provides professionals with the information they need to create safe, comfortable, and aesthetically pleasing environments for older adults.
