In Killer Food, acclaimed food safety expert Dr. Richard Lash reveals the hidden dangers lurking in our food supply and offers practical advice on how to protect ourselves and our loved ones.

Did you know that the food you eat could be making you sick? It's true. Every year, millions of people around the world get sick from foodborne illnesses. And while some of these illnesses are relatively minor, others can be deadly.

In Killer Food, Dr. Lash takes a deep dive into the world of foodborne illness. He explores the different types of bacteria, viruses, and parasites that can contaminate our food, and he explains how these pathogens can cause illness.

Dr. Lash also provides practical advice on how to protect ourselves and our loved ones from foodborne illness. He covers everything from proper food

handling and storage to the importance of cooking food to the proper temperature.

If you're concerned about the safety of the food you eat, then you need to read *Killer Food*. This book is an essential guide to protecting yourself and your family from the hidden dangers lurking in our food supply.
