- Formalism
- Functionalism

- Structuralism
- Postmodernism
- Deconstructivism

Each chapter in this section provides a detailed overview of one of these theories, explaining its key concepts and principles. The chapters also include examples of architectural and design projects that illustrate the application of the theory in practice.

Part II: Tactics of Architecture and Design

The second part of this book focuses on the practical aspects of architecture and design. This section covers a wide range of topics, including:

- Site planning
- Building design
- Interior design
- Landscape architecture
- Urban design

Each chapter in this section provides step-by-step instructions on how to carry out a particular task. The chapters also include numerous examples of real-world projects that illustrate the application of the tactic in practice.

This book is an essential resource for anyone who wants to learn more about the theories and tactics of architecture and design. Whether you are a student, a practitioner, or simply someone who is interested in the built

environment, this book will provide you with a wealth of valuable information.
