The Four Phases of the Moon

The moon goes through four distinct phases: new moon, waxing crescent, full moon, and waning gibbous. Each phase carries its own unique energy, which can be harnessed for specific purposes.

- **New Moon:** A time of new beginnings and setting intentions. It's perfect for planting seeds of manifestation, starting new projects, or

making a fresh start.

- **Waxing Crescent:** A period of growth and expansion. Use this time to nurture your goals, build momentum, and attract abundance.
- **Full Moon:** A time of culmination and release. It's ideal for harvesting the fruits of your labor, letting go of what no longer serves you, and celebrating your accomplishments.
- **Waning Gibbous:** A time of reflection and introspection. Use this phase to review your progress, release negative energy, and prepare for the new moon.

Magical Rituals for Each Moon Phase

Anya Moon provides a wealth of practical rituals and activities to help you align with the energy of each lunar phase. These rituals include:

- **New Moon:** Create a vision board, set intentions, and plant seeds of manifestation.
- **Waxing Crescent:** Manifest abundance, nurture your goals, and build momentum.
- **Full Moon:** Harvest your intentions, release negative energy, and celebrate your accomplishments.
- **Waning Gibbous:** Review your progress, release the past, and prepare for the new moon.
